

Ice House Customers,

In response to the increased rates of COVID-19 transmission in certain states within the United States, the New Jersey government has issued an incoming travel advisory stating that all individuals entering New Jersey from states with a significant spread of COVID-19 should quarantine at home, in a hotel, or in other temporary lodging for 14 days upon arrival.

In accordance with the state of New Jersey's travel advisory, Ice House requires anyone traveling from an "impacted state" to quarantine for 14 days before returning to the rink. We recognize this presents challenges, however, it is the most effective way to ensure the health and safety of our players, skaters, coaches and staff.

The most current list of "impacted states" can be found using the link below:

[NJ Government Travel Advisory](#)

Though the quarantine is voluntary, compliance is expected.

We greatly appreciate the cooperation we have received as we continue to navigate these unprecedented times.
